PROFILE

Artificial Intelligence & Machine Learning undergraduate with foundational experience in C programming, data structures, Excel-based data analytics, and Generative AI concepts. Currently engaged in academic projects focused on AI system design and campus automation, with strong interest in problem-solving, analytical thinking, and hands-on learning through practical implementation.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning

Anurag University

CGPA: 7.5 | Pursuing

Intermediate (MPC)

Narayana Junior College

Percentage: 89.2%

Akshara Vaagdevi International School (CBSE)

Percentage: 72.3%

ACADEMIC PROJECTS

Career Path Suggestion System

Integrated Academic Project – Exploratory Stage

- Structured career data into domains, roles, skills, and education paths.
- Explored basic NLP techniques to interpret user interests and preferences.

- Designed a rule-based recommendation flow to understand decision-making logic.
- Gained exposure to AI system design, logical mapping, and problem decomposition.

Smart Campus Management System

Integrated Academic Project – Ongoing

- Studying automation of campus workflows such as attendance, timetables, and student records.
- Learning how databases support academic data storage and retrieval.
- Designing basic system flow and backend logic for campus automation concepts.

CERTIFICATIONS

- Introduction to Prompt Engineering – Simplilearn (Apr 2025)
- AI and Machine Learning Full Course – IBM SkillsBuild (Mar 2025)
- Problem Solving (Basic) – HackerRank (Apr 2025)
- Python Using AI Workshop – AI For Techies (Aug 2025)

TECHNICAL SKILLS

Programming & Core Concepts: C Programming, Basics of Data Structures & Algorithms, Problem Solving.

AI & Data: Generative AI (Foundational), Prompt Engineering, AI & ML Fundamentals, Data Analytics using Excel

Tools & Environments: Jupyter Notebook, Ubuntu (Basic), Code::Blocks, Python.

SOFT SKILLS

Analytical Thinking, Creative Thinking, Basic Communication Skills, Curiosity & Willingness to Learn, Logical Problem Breakdown.

CREATIVE & DIGITAL SKILLS

Basic Video Editing (Long&Short-form Content), Editing Workflow Awareness,
Visual Composition, Content Structuring, Visual Story Telling.
